

SOFTWARE UPGRADE PROCEDURE FOR ALTECH HDIR 1

IMPORTANT : Please note that after the software upgrade process, your My-HD Altech HDIR 1 will reset into its factory default settings. All personal settings and favorite list will be deleted.

1. Download the Software file “HDIR1_Upgrade_L8” from the website.

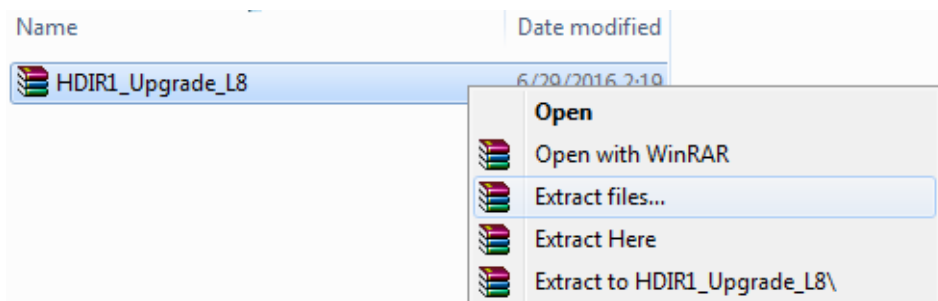

Altech HDIR1

0.4.24

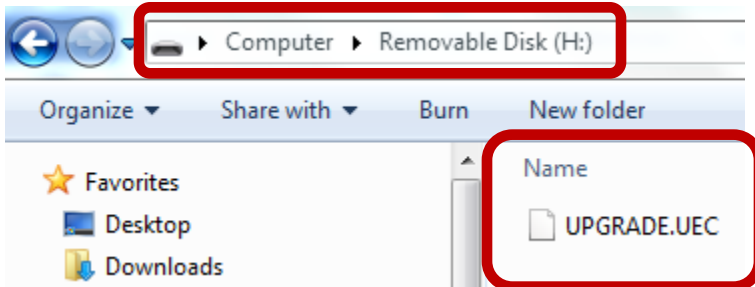

October 2015

 Software Update

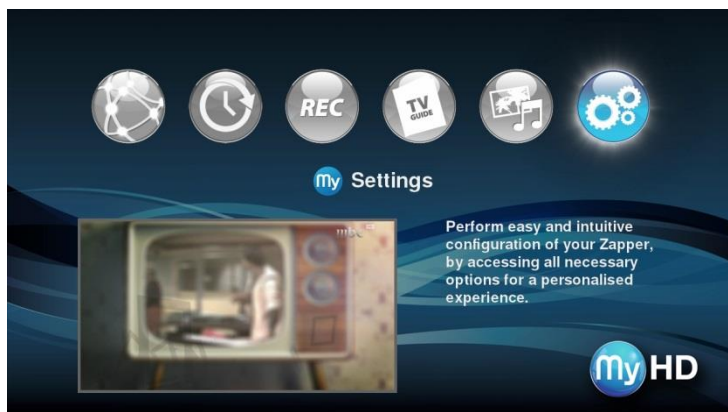

2. Extract the zip file and save the “UPGRADE.UEC” file to the USB.

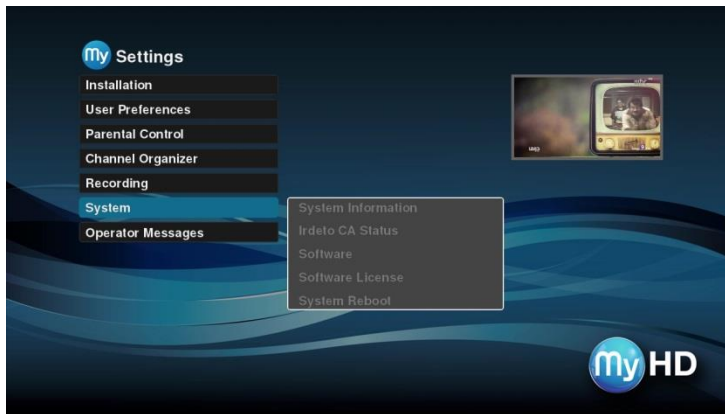

3. Ensure that “UPGRADE.UEC” is placed in the root folder of your USB storage device.

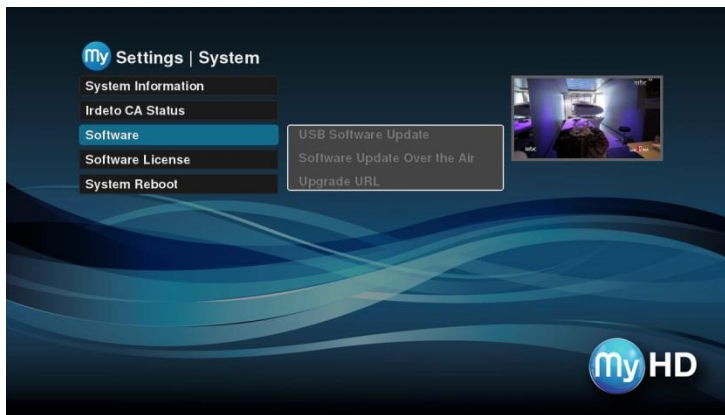

4. Insert the USB device into the side or rear USB slot.
5. Using your My-HD Altech HDIR 1 remote control, Press the **MENU** button, then Go to **SETTINGS**

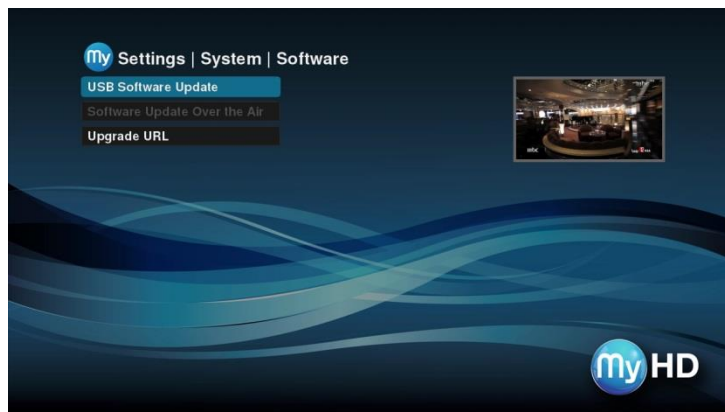

6. Select **SYSTEM**, then press **OK**

7. Select **SOFTWARE** from the options, then press **OK**

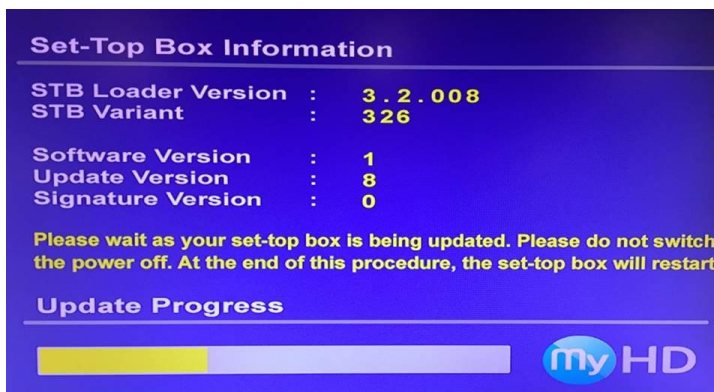

8. Select **USB SOFTWARE UPDATE**, then press **OK**

9. Press **OK** to Reboot and proceed with the software upgrade process.

10. Software upgrade on process. DURING THIS TIME, PLEASE DO NOT POWER-OFF THE UNIT OR PERFORM ANY OTHER OPERATION THAT MIGHT DISRUPT THE UPGRADE.

11. Once software upgrade is complete, My-HD Altech HDIR 1 receiver will reboot, and will go to the screen below.
